

Italy's Gruppo Alcuni Launches at MipTV

Gruppo Alcuni showcases its latest productions at MipTV 2023 in Italy's **APA** (*Association of Audio-Visual Producers*) exhibition space.

Executive Producer **Francesco Manfio** comments: "*Gruppo Alcuni has always been involved in the international entertainment market, and this edition of MipTV is particularly gratifying because of our brand-new launches and co-production deals.*"

Gruppo Alcuni is highlighting the hybrid series **Gateway 66**, a combination of animation and live action, which features a thrilling and cutting-edge approach to science for kids. This 26x6' series is co-produced with Rai Kids and MUSE – Trento Science Museum, the Trentino Film Commission and the Renzo Piano Foundation.

A definite must for the international market is Gruppo Alcuni's second season dedicated to world-renowned teen genius Leo da Vinci. **Leo da Vinci 2** (52x13') takes our Renaissance superhero, along with buddies Lisa, Lollo and Bianca de' Medici, on the trail of a mysterious ruby described by 13th-century Venetian explorer Marco Polo in his **Travels**. In co-production with Rai Kids, HR, ARD and Cosmos Maya, **Leo da Vinci 2** is currently in post-production with a TBA release date.

Our pre-school audience will be overjoyed to find their cherished Mini Pet Pal friends involved in new adventures and learning experiences with **Mini Pet Pals & Mini Dinos** (52x6'), where two seemingly dissimilar worlds connect and bond. With season 4 **Mini Pet Pals Start School** currently airing successfully on Rai Yoyo every morning, our young viewers are in for a great treat when this 5th series debuts!

Last but definitely not least, MipTV is the perfect venue to sneak preview a pre-production highlight of **The Black Diamond Race**, a new project which will launch Gruppo Alcuni in the Upper Kids genre.
